

VETVI LIGHT

ARTIST BIOGRAPHY

The VETVI interior object factory presents new solutions in the art of design and interior lighting.

The idea of creation is borrowed from nature itself: natural lines, elegance, and perfection brought to life by professional hands. VETVI is a full-cycle production (lighting, mirrors, decor, furniture) with customization options. All stages are performed manually using natural materials and alloys: brass, bronze, nickel silver, glass, and ceramics. Meticulous craftsmanship, authenticity, and unity with nature make every piece unique.
